

## Safety Data Sheet

## MIL-PRF-5606K Hydraulic Fluid, Petroleum Base; Aircraft, Missile and Ordinance

| Issue date: 4/25/2025 | Revision date: 5/14/2025            | Supersedes: 4/25/2025              | Version: 1.0 |
|-----------------------|-------------------------------------|------------------------------------|--------------|
|                       | according to 29 CFR § 1910.1200, He | azard Communication Standard (HCS) |              |
|                       |                                     |                                    |              |

## **SECTION 1: Identification**

| 1.1. Identification                          |  |  |  |
|--|--|--|--|
| Trade name                                   | RADCOLUBE <sup>®</sup> RHP5606   |  |  |
| Specification:                               | MIL-PRF-5606K Hydraulic Fluid, Petroleum Base; Aircraft, Missile and Ordinance |  |  |
| Qualification Number (Date):                 | AFPET/PTPS 20-005 (20 February 2020)   |  |  |
|  | AFPET/PTPS 20-006 (9 March 2020)   |  |  |
|  | AFPET/PTPS 23-002 (3 April 2023)   |  |  |
|  |  |  |  |
| Military Symbol:                             | ОНА  |  |  |
| NATO Code:                                   | H-515  |  |  |
|  |  |  |  |
| National Stock Number(s) (NSN):              | 9150-00-252-6383 (Quart)   |  |  |
|  | 9150-00-223-4134 (Gallon)  |  |  |
|  | 9150-00-082-7524 (10 Gallon Drum)  |  |  |
|  | 9150-00-265-9408 (55 Gallon Drum)  |  |  |
| 1.2. Recommended use and restrictions on use |  |  |  |

| 1.3. Supplier                 |   |
|-------------------------------|---|
| Restrictions on use:          | Hydraulic fluids  |
| Recommended use:              | Hydraulic fluids  |
| Use of the substance/mixture: | Hydraulic fluids and additives  |
|                               | military symbol OHA and NATO Code No. H-515.  |
|                               | and other hydraulic systems which use synthetic sealing material. This fluid is identified by |
|                               | absorbers, brakes, flap-control mechanisms, missile hydraulic servo-controlled systems,       |
|                               | +135°C temperature range. This product is intended for use in automatic pilots, shock         |
| Use of the substance/mixture: | This product is a MIL-PRF-5606K petroleum base hydraulic fluid for use in the -54°C to        |
|                               |   |

## **1.4. Emergency telephone number**

#### Emergency number:

For Chemical Emergency Call CHEMTREC 24hr/day 7days/week Within USA and Canada: 1-800-424-9300 Outside USA and Canada: +1 703-741-5970 (collect calls accepted)

## MIL-PRF-5606K Hydraulic Fluid, Petroleum Base; Aircraft, Missile and Ordinance

Safety Data Sheet

according to 29 CFR § 1910.1200, Hazard Communication Standard (HCS)

## SECTION 2: Hazard(s) identification

Full text of H statements : see section 16

## 2.1. Classification of the substance or mixture

## **GHS US classification**

| Reproductive toxicity, Category 2                              | H361 | Suspected of damaging fertility.                     |
|--|------|--|
| Specific target organ toxicity — Repeated exposure, Category 2 | H373 | May cause damage to organs (liver) through prolonged |
|  |      | or repeated exposure (oral).                         |
| Aspiration hazard, Category 1                                  | H304 | May be fatal if swallowed and enters airways.        |

2.2. GHS Label elements, including precautionary statements

#### **GHS US labeling**

Hazard pictograms (GHS US):

| Signal word (GHS US):              | Danger  |
|------------------------------------|---|
| Hazard statements (GHS US):        | H304 - May be fatal if swallowed and enters airways                                     |
|                                    | H361 - Suspected of damaging fertility.   |
|                                    | H373 - May cause damage to organs (liver) through prolonged or repeated exposure (oral) |
| Precautionary statements (GHS US): | P201 - Obtain special instructions before use.  |
|                                    | P202 - Do not handle until all safety precautions have been read and understood.        |
|                                    | P260 - Do not breathe fume, mist, spray, vapors.  |
|                                    | P280 - Wear eye protection, protective clothing, protective gloves.                     |
|                                    | P301+P310 - If swallowed: Immediately call a POISON CENTER, a doctor.                   |
|                                    | P308+P313 - If exposed or concerned: Get medical advice/attention.                      |
|                                    | P314 - Get medical attention.   |
|                                    | P331 - Do NOT induce vomiting.  |
|                                    | P405 - Store locked up.   |
|                                    | P501 - Dispose of contents and container to an approved waste disposal plant.           |
|                                    |   |

## 2.3. Other hazards which do not result in classification

No additional information available

## 2.4. Unknown acute toxicity (GHS US)

Not applicable

## **SECTION 3: Composition/Information on ingredients**

#### 3.1. Substances

Not applicable

## 3.2. Mixtures

| Name   | Product identifier    | %       | GHS US classification   |
|--|-----------------------|---------|-------------------------|
| Distillates (petroleum), hydrotreated middle | CAS-No.: 64742-46-7   | 25 – 50 | Asp. Tox. 1, H304       |

| Distillates (petroleum), hydrotreated light            | CAS-No.: 64742-47-8   | 0.1 - 1 | Flam. Liq. 3, H226      |
|  |                       |         | Asp. Tox. 1, H304       |
| Distillates (petroleum), hydrotreated middle           | CAS-No.: 64742-46-7   | 0.1 - 1 | Flam. Liq. 3, H226      |
|  |                       |         | Asp. Tox. 1, H304       |

\*Chemical name, CAS number and/or exact concentration have been withheld as a trade secret Full text of hazard classes and H-statements : see section 16

## **SECTION 4: First-aid measures**

## 4.1. Description of first aid measures

| First-aid measures general:            | Call a physician immediately.                                  |
|--|--|
| First-aid measures after inhalation:   | Remove person to fresh air and keep comfortable for breathing. |
| First-aid measures after skin contact: | Wash skin with plenty of water.                                |
| First-aid measures after eye contact:  | Rinse eyes with water as a precaution.                         |
| First-aid measures after ingestion:    | Do not induce vomiting. Call a physician immediately.          |

## 4.2. Most important symptoms and effects (acute and delayed)

| Symptoms/effects after inhalation:   | Although no appropriate human or animal health effects data are known to exist, this |
|--------------------------------------|--|
|                                      | material is expected to be an inhalation hazard.                                     |
| Symptoms/effects after skin contact: | None under normal conditions.  |
| Symptoms/effects after eye contact:  | None under normal conditions.  |
| Symptoms/effects after ingestion:    | Risk of lung edema.  |
|                                      |  |

## 4.3. Immediate medical attention and special treatment, if necessary

Treat symptomatically.

## **SECTION 5: Fire-fighting measures**

## 5.1. Suitable (and unsuitable) extinguishing media

| Suitable extinguishing media:   | Water spray. Dry powder. Foam. Carbon dioxide. |
|---------------------------------|--|
| Unsuitable extinguishing media: | Do not use a heavy water stream.               |

## 5.2. Specific hazards arising from the chemical

| Fire hazard:                             | No fire hazard.              |
|--|------------------------------|
| Explosion hazard:                        | No direct explosion hazard.  |
| Hazardous decomposition products in case | Toxic fumes may be released. |
| of fire:                                 |                              |

## 5.3. Special protective equipment and precautions for fire-fighters

| Firefighting instructions:      | Fight fire from safe distance and protected location. Do not enter fire area without proper |
|---------------------------------|---|
|                                 | protective equipment, including respiratory protection.                                     |
| Protection during firefighting: | Do not attempt to take action without suitable protective equipment. Self-contained         |
|                                 | breathing apparatus. Complete protective clothing.  |

#### MIL-PRF-5606K Hydraulic Fluid, Petroleum Base; Aircraft, Missile and Ordinance

Safety Data Sheet

according to 29 CFR § 1910.1200, Hazard Communication Standard (HCS)

## **SECTION 6: Accidental release measures**

| 6.1. Personal precautions, protective equipment and emergency procedures |   |  |
|--|---|--|
| General measures:  | Stop leak if safe to do so. Notify authorities if product enters sewers or public waters.<br>Absorb spillage to prevent material-damage.  |  |
| 6.1.1. For non-emergency personnel                                       |   |  |
| Protective equipment:  | Wear recommended personal protective equipment.   |  |
| Emergency procedures:  | Ventilate spillage area. Do not breathe dust/fume/gas/mist/vapors/spray.  |  |
| 6.1.2. For emergency responders  |   |  |
| Protective equipment:  | Do not attempt to take action without suitable protective equipment. For further information refer to section 8: "Exposure controls/personal protection".                           |  |
| Emergency procedures:  | Evacuate unnecessary personnel. Stop leak if safe to do so.   |  |
| 6.2. Environmental precautions   |   |  |
| Avoid release to the environment.  |   |  |
| 6.3. Methods and material for contair                                    | nment and cleaning up   |  |
| For containment:   | Absorb spilled material with sand or earth. Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Stop leak, if possible without risk. |  |

Take up liquid spill into absorbent material. Notify authorities if product enters sewers or

Methods for cleaning up:

Other information:

#### 6.4. Reference to other sections

For further information refer to section 13.

#### **SECTION 7: Handling and storage**

#### 7.1. Precautions for safe handling

| Additional hazards when processed: | Not expected to present a significant hazard under anticipated conditions of normal use.    |
|------------------------------------|---|
| Precautions for safe handling:     | Ensure good ventilation of the work station. Obtain special instructions before use. Do not |
|                                    | handle until all safety precautions have been read and understood. Wear personal            |
|                                    | protective equipment. Do not breathe dust/fume/gas/mist/vapors/spray.                       |
| Hygiene measures:                  | Do not eat, drink or smoke when using this product. Always wash hands after handling the    |
|                                    | product.  |

Dispose of materials or solid residues at an authorized site.

#### 7.2. Conditions for safe storage, including any incompatibilities

| Technical measures:  | Keep in a cool, well-ventilated place away from heat.                     |
|----------------------|---|
| Storage conditions:  | Store locked up.  |
| Storage temperature: | -57 – 49 °C   |
| Packaging materials: | Store always product in container of same material as original container. |

public waters.

## **SECTION 8: Exposure controls/personal protection**

#### 8.1. Control parameters

## 9.2. Other information

No additional information available

## **SECTION 10: Stability and reactivity**

## 10.1. Reactivity

The product is non-reactive under normal conditions of use, storage and transport.

## MIL-PRF-5606K Hydraulic Fluid, Petroleum Base; Aircraft, Missile and Ordinance

Safety Data Sheet

according to 29 CFR § 1910.1200, Hazard Communication Standard (HCS)

## 10.2. Chemical stability

Stable under normal conditions.

## 10.3. Possibility of hazardous reactions

No dangerous reactions known under normal conditions of use.

## 10.4. Conditions to avoid

None under recommended storage and handling conditions (see section 7).

## 10.5. Incompatible materials

No additional information available

## 10.6. Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## **SECTION 11: Toxicological information**

## **11.1.** Information on toxicological effects

| Acute toxicity (oral):                | Not classified   |  |
|---------------------------------------|--|--|
| Acute toxicity (dermal):              | Not classified   |  |
| Acute toxicity (inhalation):          | Not classified   |  |
| Skin corrosion/irritation:            | Not classified   |  |
| Carcinogenicity:                      | Not classified   |  |
| Aspiration hazard:                    | May be fatal if swallowed and enters airways.  |  |
| Viscosity, kinematic:                 | 13.7 mm²/s at 40°C (104°F)   |  |
| Symptoms/effects after inhalation:    | Although no appropriate human or animal health effects data are known to exist, this |  |
| Symptoms/enects after initialation.   | material is expected to be an inhalation hazard.                                     |  |
| Symptoms/effects after skin contact:  | None under normal conditions.  |  |
| Symptoms/effects after eye contact:   | None under normal conditions.  |  |
| Symptoms/effects after ingestion:     | Risk of lung edema.  |  |
| STOT-single exposure:                 | Not classified   |  |
| STOT-repeated exposure:               | May cause damage to organs (liver) through prolonged or repeated exposure (oral).    |  |
| Reproductive toxicity:                | Suspected of damaging fertility.   |  |

|   |  |  |

#### MIL-PRF-5606K Hydraulic Fluid, Petroleum Base; Aircraft, Missile and Ordinance

Safety Data Sheet

according to 29 CFR § 1910.1200, Hazard Communication Standard (HCS)

| Distillates (petroleum), hydrotreated light naphthenic (64742-53-6) |   |  |
|---|---|--|
| LOAEL (oral,rat,90 days):   | 125 mg/kg body weight male (OECD 408 method)                                      |  |
| NOAEL (dermal,rat/rabbit,90 days):                                  | 1000 mg/kg body weight (OECD 410 method)  |  |
| Alkylated amine   |   |  |
| NOAEL (oral,rat,90 days):   | 25 mg/kg body weight (OECD 422 method)  |  |
| STOT-repeated exposure:   | May cause damage to organs (liver) through prolonged or repeated exposure (oral). |  |
| Distillates (petroleum), hydrotreated light (64742-47-8)            |   |  |
| NOAEL (oral,rat,90 days):   | 750 mg/kg body weight female)   |  |
| NOAEC (inhalation,rat,vapor,90 days):                               | ≥ 0.024 mg/l Air (OECD 412 method)  |  |

## **SECTION 12: Ecological information**

#### 12.1. Toxicity

Ecology - general:

The product is not considered harmful to aquatic organisms or to cause long-term adverse effects in the environment.

| Distillates (petroleum), hydrotreated middle (64742-46-7) |  |  |
|---|--|--|
| LC50 - Fish [1]:  | 1.2 mg/l Species: Oncorhynchus mykiss (Rainbow trout), 21 days |  |
| EC50 - Crustacea [1]:                                     | 2.9 mg/l Species: Daphnia magna (Water flea), 96 Hours         |  |
| Alkylated amine   |  |  |
| Alkylated amine   |  |  |
| Alkylated amine<br>LC50 - Fish [1]:                       | 100 mg/l Brachydanio rerio (zebra-fish)                        |  |

#### 12.2. Persistence and degradability

| Synthetic hydrocarbon          |  |
|--------------------------------|--|
| Persistence and degradability: | Biodegradability in soil: no data available. Biodegradability in water: no data available. |

## 12.3. Bioaccumulative potential

| Synthetic hydrocarbon      |                                    |
|----------------------------|------------------------------------|
| Bioaccumulative potential: | No bioaccumulation data available. |

#### 12.4. Mobility in soil

No additional information available

## 12.5. Other adverse effects

No additional information available

California Proposition 65 - This product does not contain any substances known to the state of California to cause cancer, developmental and/or reproductive harm

#### **SECTION 16: Other information**

according to 29 CFR § 1910.1200, Hazard Communication Standard (HCS) Revision date: 05/14/2025

| Full text of hazard classes and H-statements |   |
|--|---|
| H226   | Flammable liquid and vapor  |
| H304   | May be fatal if swallowed and enters airways                      |
| H361   | Suspected of damaging fertility or the unborn child               |
| H373   | May cause damage to organs through prolonged or repeated exposure |
| H411   | Toxic to aquatic life with long lasting effects                   |
| H412   | Harmful to aquatic life with long lasting effects                 |

| NFPA health      | 2 - Materials that, under emergency conditions, can cause temporary incapacitation or residual |              |
|------------------|--|--------------|
| hazard           | injury.  |              |
| NFPA fire hazard | 1 - Materials that must be preheated before ignition can occur.                                | 2 $1$        |
| NFPA reactivity  | 1 - Materials that in themselves are normally stable but can become unstable at elevated       |              |
|                  | temperatures and pressures.  |              |
|                  |  | $\checkmark$ |
|                  |  |              |

| Hazard Rating |  |
|---------------|--|
| Health        | 2 Moderate Hazard - Temporary or minor injury may occur  |
| Flammability  | 1 Slight Hazard - Materials that must be preheated before ignition will occur. Includes liquids, solids and semi solids having a flash point above 200 F. (Class IIIB)   |
| Physical      | 1 Slight Hazard - Materials that are normally stable but can become unstable (self-react) at high temperatures and pressures. Materials may react non-violently with water or undergo hazardous polymerization in the absence of inhibitors. |

## MIL-PRF-5606K Hydraulic Fluid, Petroleum Base; Aircraft, Missile and Ordinance

Safety Data Sheet

#### according to 29 CFR § 1910.1200, Hazard Communication Standard (HCS)

This information relates to the specific material designated and may not be valid for such material used in combination with any other materials or in any particular process or for any particular purpose. Such information stated is to the best of Radco's knowledge and belief, accurate and reliable as of the date compiled. However, no representation, warranty or guarantee is made to its accuracy, reliability, or completeness, purchasers, users and distributors are not relying on any promise, representation, or recommendation made by Radco, and Radco does not accept liability for any loss or damage that may occur from the use of this information. Final determination of suitability of any material is the sole responsibility of the user. All material should be used with caution to guard against unknown hazards. Although certain hazards are described herein, Radco does not guarantee that these are the only hazards that exist.
